

YOUR BIRTH STORY

More than 6 years ago I married the man of my dreams. I've traveled to some pretty incredible destinations. I've stood atop the tallest mountain in Germany, eaten gellato in the piazzas of Italy and I've climbed inside the pyramids of Egypt. I can gratefully say that I've experienced some pretty amazing things in my life.

After experiencing all of those things I can say without a single bit of doubt that the most amazing and life changing experiences in my life were the moments that I gave birth to each of my daughters. I never imagined all of the emotions I would feel at those moments. I was filled with pride for myself as a woman and a mother. I was overwhelmed with a love so intense for my daughters that it pained me; the love my own mother always had for me but could never fully explain.

Those are the moments I want to capture. I want to capture your expressions as you anticipate your little one's arrival, your emotions as you meet your child for the first time and the love that instantly fills your heart. These are the moments that tell your birth story.

I schedule just one birth each month to ensure my availability to you. I am on call 24 hours a day, 7 days a week... so please don't worry about calling me at 2 o'clock in the morning on a Monday when you're in labor.

I do ask that you clear everything with your doctor / hospital, that you get approval for me to be there and any guidelines you or your doctor have regarding my presence. It is advisable to get this approval prior to booking and written approval is best.

Payment for birth photography is due upon booking and is non-refundable but can be applied towards other products and services.

your birth story - collection I | \$450

- A pre-delivery consultation to discuss your expectations from this experience (meet you / your partner and cover any questions or concerns)

5x5 tri-fold cards (set of 25)	\$80.00			

YOUR BIRTH STORY

Birth...

If you know me you know that being a mother and a photographer are two things that define my life. Being able to blend my passion for motherhood with photography is simply awesome.

Having two kids of my own I know that labor and delivery are intimate, intense, sometimes scary and physically and emotionally overwhelming. For these reasons I aim to be as unobtrusive as possible by using only natural and available light during your labor and delivery. My goal is to simply be an observer. I want to tell your birth story through real, honest and candid images.

I am grateful for the opportunity to combine my passions for motherhood and photography in telling your birth story.

Planned cesarean/induction...

If you're being induced or you're having a scheduled c-section then please let me know as soon as you have a date scheduled so I can put it on the calendar. With a cesarean we'll know the date and an approximate time for your delivery. I do know that things change so we'll remain flexible on the date of your delivery. I will capture every detail the same as I would for spontaneous labor and induction births.

Spontaneous labor/induction...

If you have any known progress prior to labor I would love to know as it will likely impact the time that you're in labor. Once you're in labor I would like to know just so I know that things are happening and that your little one is on his or her way. This might mean that your contractions have started, your water broke or a combination of the two. Please call or text me to let me know that you're heading to the hospital (713.966.9754).

Once you arrive at the hospital they'll be able to confirm whether or not you are in labor. Once you have been admitted and checked please update me again so I know your progress. I take a limited number of births at a time to ensure my availability to you, but please know that I do need notice to ensure that I am able to make it to the hospital in time.

I would like to arrive when you're 5-6cm dilated, that way I'm there long enough to capture the details, the environment, your visitors, etc. before your little one's arrival. This also allows for plenty of time after your little one's arrival to capture bonding time, introductions, etc. Every birth is different, so we'll make adjustments to the timing to suit your unique birth experience.

What to expect...

I typically process all images within 7-10 days of a birth. All images will be hosted in a private online gallery. Your slideshow will be available to preview and share with family and friends through my blog. I will provide a disc of the slideshow which you can use to put the slideshow on your personal website, view on your television and have as a keepsake of your birth experience.

All images are processed in black & white to ensure continuity in processing.
